Fair Trade Organic Coffees

Coffee Mill is pleased to introduce new blends to you.

Fair Trade means an equitable and fair partnership between consumers in North America and coffee producers abroad. More and more, consumers are

concerned about the conditions of the people who produce the products they buy. Fair trade means that producers were paid a fair wage for their products and work in decent conditions.

Organic coffee is grown using methods and materials that have a low impact on the environment.

Try these blends:

- *Decaf*
- *European Dark*
- *Lauren's Blend*
- *Peruvian*
- *Rainforest*
- *Sumatra*
